

Alien Intelligence and the Pathway to Mars

Mary Bennett

A full-colour exploration of the links between ancient monuments on Earth, formations on Mars, sacred geometry, crop glyphs, and advanced physics

- Details how exploratory probes sent to Mars in the 1970s triggered a plethora of anomalous events, particularly crop circles (glyphs), and how these events are messages from ET intelligence to help us send a human mission to Mars

- Reveals how the anomalous Cydonia region of Mars fits the Golden Ratio Spiral and looks at links between Martian formations and Earth's ancient sites

- Illustrated throughout with colour photographs, maps, and diagrams

In this full-colour study based on 25 years of research, Mary Bennett explores the ancient and modern connections between Mars and Earth as well as how extra-terrestrial intelligences are trying to assist us in constructing a viable spacecraft to take a human crew swiftly and safely to Mars. She details how exploratory probes sent to Mars in the 1970s triggered over three decades of anomalous yet scientifically validated events, including crop circles, or crop glyphs. She explains how these formations, along with related events, encode advanced engineering concepts that offer solutions to the fundamental problems presently hindering long-haul crewed spaceflight –whether to the Moon, Mars, or beyond.

Looking at the red planet itself, the author reveals the scientifically verifiable evidence pointing to intelligent design on the surface of Mars, specifically in the Cydonia region, which fits the Golden Ratio Spiral. She looks at the covert links between the Martian formations and Earth's ancient sites, such as the Avebury landscape in England and the Giza Complex. She describes how agencies concerned with space travel have been quietly mirroring areas of Mars through construction projects here on Earth, revealing that many of the ET messages have already been partially decoded.

Taking you from a complex on Mars to the Teotihuacán pyramids in Mexico, from phi ratios to the Pentagon, from the Great Pyramid to quantum computing, this exploration of the hidden influence of Mars shows that our abilities as a future space-faring species began in the ancient past and are now coming to fruition.

MARY BENNETT is an author, editor, translator, and former executive for several major brand corporations, including Les Must de Cartier and l'Oreal subsidiary Artcurial. Gifted with psychic abilities, she began scientifically investigating crop glyphs in 1989. Bennett lives in Wiltshire, England.

Alien Intelligence and the Pathway to Mars, (Bear & Company, 2021) her latest book, is the culmination of decades of research. Having previously edited *Two-Thirds, A History of the Galaxy*, (Aulis Publishers, 1993), *The Only The Planet of Choice*, (Gateway Books, 1994), she then researched and co-authored *Dark Moon: Apollo and the Whistle-Blowers* (Aulis Publishers, 1999) with **DAVID S. PERCY**. In 1995 this London based, award-winning cinematographer, director, graphic designer and photographer set up Aulis Online, a platform covering subjects ranging from the Apollo Moon record and the future of human

space travel, through to the origins of humans and the Mars/Earth connections. Bennett is a co-editor of Aulis Online and *Alien Intelligence* has its own webpages aulis.com/pathway

Alien Intelligence and the Pathway to Mars: The Hidden Connections between the Red Planet and Earth is available at all good bookshops and on Amazon paperback, Kindle and e-book.

Length: 544 pages
