

Earth and sky impact events, 666 and the approaching star in the new crop circle!

Magnificent crop circle appears this Sunday, 22.05.2022, in England, in Little Down, Nr Hippenscombe, Wiltshire. They always prefer Sundays, remember what I said before? Most crop circles talk about astronomical messages and cosmic events, and this one was no different.

This is a CONTINUATION of the message from the crop circle immediately preceding this one, from Enmill Barn, Winchester, Hampshire, recorded on April 24, 2022, 28 days ago (which gives a lunar orbit of about 28 days).

And that adds elements to our interpretation. As today is the day of the crescent moon, the more striking the association becomes. The repeated quaternary model rhymes with the crop circle date, 22, which adds up to four. This is reinforced in the new crop circle.

So the model, from an astronomical point of view, can represent both the Earth at the center and the four points of lunar orbit, as well as the Sun at the center and the four points of Earth orbit. Both satisfy this simple diagram, but strangely surrounded by an energy ring with 16 rays, forming a sort of clockwise rotating energy wheel. In the tarot, Arcanum 16 is called the Tower, or the House of God, and predicts catastrophes, both cosmic and planetary or social.

A 2017 crop circle referring to an eclipse used the same style of energy disk around the astronomical system indicated at that time, so it is an old style repeated here today. He appeared in Cheesefoot Head, Nr Winchester, Hampshire, on 17.06.2017

An energy wheel that seems to represent a powerful activation of these systems IN 16 DAYS?

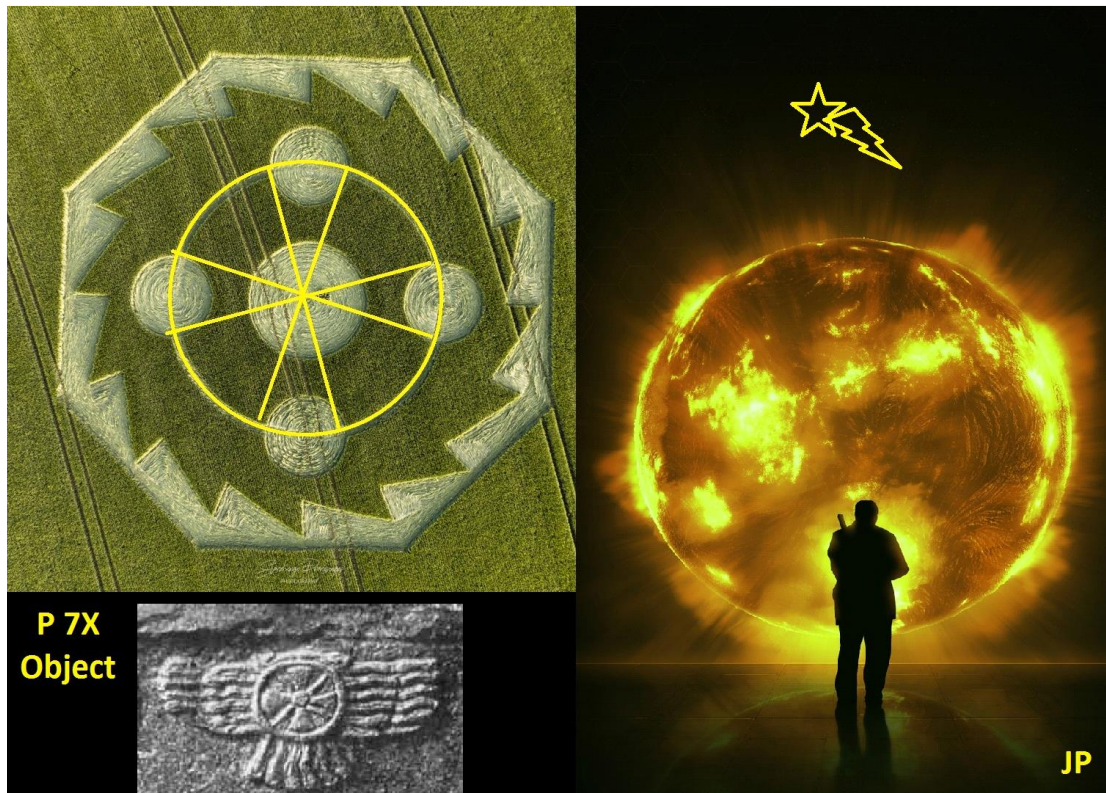

(the number of rays of the outer ring of today's crop circle, and counting from this day). It's quite likely.

If today is 22.05.2022, 16 days from now it will be on 06.06.2022, which reduces to 666! 06.06.2022 (2+2+2)!

This may suggest, on this date that closes in such an "iconic" apocalyptic symbol, not only cosmic, solar and planetary events, but Earth impact events!

Apocalyptic events given by the indirect reference to "666"?

After all, we are under so much planetary tension with the historic war between Russia and Ukraine spreading its tentacles to Europe and the rest of the world, so anything can happen. Even the detonation of new targets beyond Ukraine, as this radiation all around the astronomical system (Sun-Earth-Moon) seems to suggest in 16 days, or the 16th day from today, May 22nd.

**P 7X
Object**

This halo of energy could also be predicting incredible solar flares, with events reverberating on Earth, which often happen, such as earthquakes, volcanism, etc. There is another subtle element here: the star of the cross, the solar disk with the cross in the middle, represented in ancient cultures such as Sumer and Egypt. This winged disk represents the Sun, and also the flying artifacts of the Anunnaki, which we can interpret as UFOs.

And it would also be the symbol of the invading star.

The object P7X, Nemesis or, more commonly, Nibiru.

The fact is that the object P 7X is getting closer and closer to the aforementioned astronomical system that fits us by address, Sun-Earth-Moon, and it has been directly responsible for many changes in the pattern in the balance of natural forces, which have been shaken for years. .

A beautiful crop circle from last year, dated June 9, 2021, Mud Lane, Wiltshire, UK, showed the same astronomical diagram (eclipse) accompanied by a strange object orbiting the Sun, and the symbol of the Cross, such as the Sumerian disk.

So, it may be that around the indicated date, 06.06.2022, impacts will occur in the sky and on Earth, motivated by the "star of the cross".

Or the star that crosses, the interpretation given to the name NIBIRU.

Note that, in the center of the crop circle, in the central circle that represents the Sun (heliocentric model) there is an inserted formation, like a foreign object or "invader" to the solar system, which then activates its energies beyond the standards.

NASA's Sun monitoring satellites capture this mysterious object all the time in the form of a comet that simply shouldn't be there!

And we've never had so many solar flares as recently!

And it could all be just the beginning of a NEW WAVE ahead!

A relatively simple symbol but with many connections and associations of interpretation that you can see by opening the article.

And if I'm correct, the crop circle is setting a date.

Day 06.06.2022, which kabbalistically reduces in sum to 666!
